EDUCATION

Cybersecurity

New York University (January 2021 - December 2023)

Master of Science (MS) - Cyberfellow

Software Development

Western Governors University (December 2016 - December 2019)

Bachelor of Science (BS)

CERTIFICATIONS

CAE-Cyber Operations (CAE-CO)

National Security Agency (December 2023)

CAE-Cyber Defense (CAE-CD)

National Security Agency (December 2023)

PenTest+ ce

CompTIA (June 2021)

redis rate limiter using Lua

- Fix ACL issues in production application

Lead Software Developer

[Modern Tribe Inc.](#) (January 2019 - July 2020)

- Led a team of several developers for several SaaS products using Laravel
- Architected a framework that company will use to create applications for next 5+ years
- Created systems and custom bots for monitoring performance and application usage

Software Developer

[Modern Tribe Inc.](#) (May 2017 - January 2019)

- Created a custom, server-side rendered React SaaS application from scratch by following industry best practices
- Conceptualized and crafted a polished SaaS product with (4000+) tests using Jest and Cypress
- Developed and published React Native application

Software Developer

[CK-12 Foundation](#) (May 2015 - April 2017)

- Led new teacher dashboard efforts to better allow teachers to organize and monitor student progress through their curriculum
- Developed a D3.js concept map, showcasing subject material and interrelation with each other

Web Services Developer

[Sama Group](#) (February 2015 - May 2015)

- Managed multiple site resources amongst all companies
- Helped with development efforts related to multi-company projects with Ruby on Rails

Software Developer

[Samahope](#) (October 2014 - February 2015)

- Developed several applications to help raise money for doctor's performing life saving surgeries in third-world countries in Rails
- Integrated with physical mail systems to send postcards

Software Developer

[Blulight Design](#) (February 2011 - September 2014)

- Developed multiple e-commerce solutions with integrations into Amazon and Ebay with PHP
- Designed e-commerce websites and optimized them for SEO
